## The WellnessPro™ Plus: A Revolutionary New TENS Device

Our mission is to improve global wellness through the relief of chronic and acute pain. ElectroMedical Technologies brought together some of the best biomedical researchers from around the world to improve upon existing transcutaneous electrical nerve stimulation (TENS) technology and bioelectrical therapy modalities.

What we created ending up being so much more than what was on the market. It's the leading solution for delivering pain relief in every professional care setting: **The WellnessPro Plus.**

## Backed By Science, Research, And Today's Experts

Decades of research and development were spent creating (and perfecting) the WellnessPro Plus.

It is specifically built for precise electrotherapy treatments to treat muscle pain, injuries, and connective tissue problems with the simple push of a button.

The WellnessPro Plus offers the largest frequency range of any TENS device in its class, which means it can treat the largest number of ailments and injuries. And because the WellnessPro Plus features a unique, "future-ready" modular design, it's the only electrotherapy device you'll ever need to buy.

## Why The WellnessPro™ Plus Is The Best TENS Device Available

Without question, the WellnessPro Plus is one of the most advanced electrotherapy devices in the world. It's become the most recommended TENS device among healthcare professionals. Here's why.

- **DeepPulse ION Technology**

With the use of DeepPulse ION technology, the WellnessPro delivers microcurrent and frequencies deeper to the problem areas turning off pain almost instantly in some cases.

- **Customizable Therapy**

The WellnessPro Plus comes with fully custom, programmable functions. This means you can experiment with different frequencies to treat each patient's unique pain.

- **Five Wave Types**

Burst, spectrum, sweep, duplex, and continuous waves provide greater flexibility than standard TENS devices. The unique waves reduce the risk of skin irritation.

- **Laboratory Tested**

The WellnessPro Plus is lab tested to the highest standards (FDA, ISO, UL, CE, CSA, ETL, and IEC) to ensure the highest levels of safety, accuracy, and precision.

- **Largest Frequency Range**

The WellnessPro Plus has more than *one million* frequencies to choose from, giving practitioners more precise control and flexibility when it comes to treating pain.

# Sessions

## Life Changing support

Session	Price	Duration
WellnessPro	\$30	30 minutes
	\$50	60 minutes
